Subject: [External] Docket No 2020-125-E

My view is as follows. I plea with you, to NOT to raise costs on customers, especially people like myself, that have been out of work since March 2020. I work in elder care. My income ended. I was denied unemployment due to working for myself since 2018, and then with an Agency but less than a year not enough paid into the UEI fund. I have a SS income only, I just moved during the pandemic bc My lease in PA came to an end. I purchased a condo here in Summerville SC 4/30/20. Permanent 9/30/20. My life has turned into a financial mess and the home I bought needs a complete heating and air conditioning system. I am _____ ars old. And I am a single divorced woman, trying to make ends meet. Physical Therapy 3 times a week at _____ center and I pay monthly my out of pocket cost, my portion, is \$3400.00

Please give us some time before increasing us. Gasoline has gone up since the election, food has gone up, my HOA has gone up. We need to get back on our feet. This is a fine example of kicking us when we ar e down. Please I beg of you, give us a break. Give us time, give me time, to get on my feet.

Thank You for hearing me.

Respectfully,

Carol A Taylor
